- Federal & Nebraska Regulations
- Test & Review

WORKSHOP INSTRUCTORS

John Rebholz is the Director of Safety and Education with the Illinois Fertilizer & Chemical Association and lead instructor for Asmark's Ammonia Technician Course as well as the Cargo Tank (CT) course. Prior to joining IFCA, John worked for the Illinois Department of Agriculture for 28 years specializing in anhydrous ammonia safety, training, and regulations.

Jason Solberg is the Director of Programs and Compliance for the Illinois Fertilizer & Chemical Association. Jason has a Bachelor of Science degree in Environmental Health from Illinois State University and has been working for IFCA for close to ten years.

ARE YOU IN COMPLIANCE WITH DOT HAZMAT REQUIREMENTS?

The 2025 NH₃ Safety Training has been designed to meet the requirements under DOT Title 49, CFR 172.704, Hazmat Training for NH₃.

WHO SHOULD ATTEND?

HAZMAT employee means a person who is employed by a hazmat employer and directly affects hazmat transportation safety including an owner-operator of a motor vehicle which transports hazmat; a person (including a self-employed person) who:

- is a driver of a HazMat loaded vehicle (includes towing)
- loads a vehicle for transportation with HazMat material
- repairs a vehicle used for transporting HazMat material (to include on-road repairs)
- oversees the transportation of HazMat load
- prepares the paperwork required in completing the load of HazMat materials, OR, and most important, is the manager of the facility overseeing any of the above listed personnel and who directly affects the hazardous materials transportation safety.
